

Thermfloor®

Underfloor Heating Panel

Çukurova Yalıtım has added underfloor heating panel to its product range.

Underfloor heating products are insulating panels made of Expanded Polystyrene foam which provide underfloor insulating materials and floor mounted hot water pipes to be fastened and to be distributed well.

- ✓ Environment friendly
- ✓ Long lasting
- ✓ Easy application
- ✓ Fast drying on wet surfaces
- ✓ Healthy & Comfortable
- ✓ Economic
- ✓ Energy saving
- ✓ Low water imbibition value
- ✓ % 100 Recycling material

Dimensions (1 panel)	107 x 62 cm
Volume (1 panel)	0,01538 m ³
Area (1 panel)	0,63 m ²
Suitable diameter of pipes	16/17/18 mm
Panel number in 1 package	18
Package number in 1 truck	104

Density	32	30
Heat conductivity W/m ²	0,034	0,035
10 % compressive strength	200	150
Bending strength	250	200
Water absorption in volume	0-3	0-4
Vapour Diffusion Factor Value	30-70	40-100
